Blender

OS

Linux | Ubunto
Windows

INTERESTS

PROFILE

My name is Wilson Marques, born in Portugal and currently living in the district of Viseu. My academic background is in design. But my love for technology led me to study development. I am self-taught in the field. Driven by passion, my goal is to grow and learn more and more every day. Teach what I can, and learn the most from people who want to guide me.
Organized, perfectionist. Love crawlers and hacking, always guided by curiosity! ☻
